Ox-Pro® VCI Paper

PRODUCT DESCRIPTION

Ox-Pro® VCI Paper combines paper pulp with Volatile Corrosion Inhibitors technology. This state of the art application provides multi-metal protection for parts, equipment and metal components for up to 1 year. This is usually used in indoor conditions.

Ox-Pro® VCI paper is ideally suited for transit, staging and lay-up of critical equipment.

The film can replace conventional rust preventives such as oils and desiccants. Parts protected with Ox-Pro VCI paper are ready to use with no additional cleaning and/or degreasing necessary, saving you time and money.

APPLICATION

Ox-Pro® VCI paper is usually used in the below scenarios:

- Spares such as Pipe, spool, couplings and small modules
- Equipment such as valves, pumps, etc

It can also be coupled with VCI emitters, VCI pouches, VCI desiccants, VCI rust preventive products or even simple desiccants to enhance the performance of preservation.

Benefits

- Multi-metal corrosion inhibition providing contact barrier and vapor phase protection
- pH neutral, non-acid, non-toxic, non-abrasive
- Cost effective

Metals protected include and not limited to:

- ✓ Steel
- ✓ Ferrous metal

Physical Properties

Appearance	: Brown sheets
Dimension	: customizable
Weight	: 82g/m2
Shrinkable	: No
Application Tools	: N.A.
Packing	: sheets / rolls
